Kakuma refugee camp hosts refugees from South Sudan and other neighboring countries. Many organizations operate there with an aim of providing relief services and preparing the refugees to be productive citizens should they choose to go back to their countries. On this occasion, we trained staff from LWF/DS on Project Monitoring and Evaluation in Kakuma, Dadaab, Nairobi and Kismayu. It was a highly successful training.

World Bank Funded Training for Community Leaders

Training Community Leaders on Sustainability of projects funded by World Bank. We customize our training methods to be impactful to the participants we are training. Here, we adopted a highly simplified approach that ensured the community leaders grew in their competence to spearhead sustainability of projects funded by World Bank in their areas.

LEWA Conservancy-360 Degree Appraisal

LEWA Wildlife conservancy doesn't believe in traditional appraisal methods. When they engaged us to develop a state of the art 360 degree performance appraisal system, we knew we were contributing towards conservation efforts in Africa, and we gave it our best. Here, we are training the senior management team on how to use the system. We were joined by some antelopes in the background.

RAA Ltd Leadership Training

RAA Ltd is a distribution company based in Kenya. When they felt the need to train their HODs on Leadership, they reached out to Vantage Africa School of Leadership. We trained the team in 2 cohorts for 2 days each.

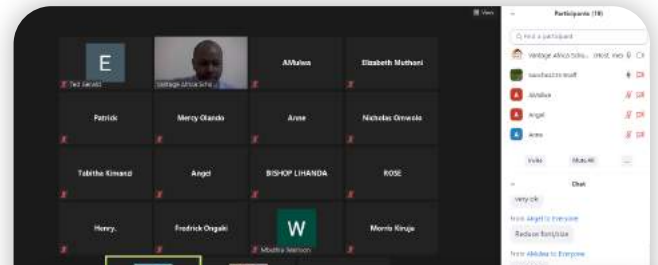

KCCB Training on Ms Project

Kenya Conference of Catholic Bishops (KCCB) approached us to train their project officers on Resource Mobilization and Proposal Writing.
